YOU CAN CARRY UP TO THREE EXTRA CHILDREN...

in safety and confidence, knowing that your Retro child seat is a high quality, engineered product - the result of years of careful development and extensive market experience. Retro was the first to produce the forward-facing concept in child seating over twenty years ago, and today there are many Australian families enjoying the convenience, versatility and safety of a Retro child seat.

RETRO EXTRA CHILD SEATING WON'T LOOK OUT OF PLACE...

in your Commodore wagon. A Retro extra child seat is an investment in safety and comfort which can be transferred, re-upholstered if necessary, to your next Commodore Wagon and the one after that as well.

YOU WON'T LOSE YOUR STATION WAGON CAPABILITY.

With a Retro seat in place there's still plenty of carrying space for small suitcases or your weekly shopping, and for those rare other occasions your seat can be partially or completely folded up, and if necessary can even be removed from the vehicle altogether.

YOU CAN CHOOSE A STYLE TO SUIT YOUR NEEDS.

Our Plus1, Add2 or Plus3 range are a budget priced yet safe and sensible seating solution, while our Take1, Take2 and Take3 range has more style, comfort and other features. The choice is yours - you simply select the Retro seat which offers the best solution for your family.

An economical 'ECO' 1, 2 & 3 Range is also available - Please enquire for separate brochure.
